contains a handsome and varied assortment of the finest goods.  
Goods delivered free of charge to all parts of Sausalito.

## Yacht House Hotel and Restaurant

PETER CLAUDIANOS, Proprietor  
WATER STREET, SAUSALITO  
Quiet, Pleasant Rooms at Reasonable Rates  
Excellent Board and Table Service  
FINE WINES, LIQUORS AND CIGARS at the Bar  
Patronage Solicited

## BOUND AND MURDERED BY HIS WIFE

Vermont Man Thought He Was Taking Part in a Rope-Tying Game.

### CHLOROFORMED WHEN HELPLESS.

His Body Placed on a Wheelbarrow and Dumped into a River—Confession of Young Confederate.

Bennington, Vt.—The body of Marcus Rogers was found last week in the Walloomsuc river, which runs through this town. Mrs. Rogers, his widow, from whom he was separated, and Stella Bates, a companion of Mrs. Rogers, were lodged in jail, and Leon Parham, aged 23, was taken in custody by the Sheriff, the three being charged with murder. Rogers' had had been found on the river bank, and a note signed Marcus Rogers, and saying he had committed suicide, was found posted on the door of his store.

At the inquest Leon Parham broke down and confessed. He is a son of Abner Parham, with whom Mrs. Rogers boarded. He said Rogers came to the house to get his wife to live with him again. Rogers, Mrs. Rogers and the witness got to playing a game in which one person was tied with a rope by the others. Each time he broke away, but the third time he was tied securely.

Then Mrs. Rogers got a bottle filled with chloroform, the witness said, and poured the contents down her husband's throat. He soon died. Besides being poisoned, he was beaten on the head. The body was put on a wheelbarrow and dumped into the river.

An examination showed that Rogers had not met death by drowning, and arrests followed. Stella Bates, it is alleged, procured the chloroform which was used. Rogers' life was insured for \$500.

Judges who sit on benches and judge other men for the shortcomings of human nature should be men with clean hands.

## PREPARING TO CROSS THE BORDER

Large Number of Chinese Gathered at the City of Ensenada.

Washington.—Commissioner-General of Immigration Sargent has received reports from Chinese inspectors in Southern California that a large number of Chinese are on the way to that port with the apparent intention of sneaking across the border into San Diego county. They are said to be a part of a cargo of Chinese that recently passed through San Francisco in transit bound for distant points in Mexico and Central America, even as far south as Boca del Toro. Instead of going to their ostensible destination, they slipped off the Pacific Mail steamer at Mazatlan and worked back to Ensenada on the steamer Curacao.

The presence of so many Chinese in Ensenada aroused suspicion and led to reports to the Commissioner-General. He has detailed three inspectors from Washington to go to Ensenada, and will send three or four others from points where they can be spared to go down and assist the San Diego inspectors in patrolling the border.

### RESTAURANT CASHIER INSANE.

Found Wandering on the Desert Fifty Miles From San Bernardino.

San Bernardino.—Stephen Dodge, night cashier of the Harvey eating-house at Barstow, was found insane on the desert Sunday night by a posse headed by Deputy Sheriff Estrango, which had been searching for him since early Thursday morning, when his disappearance was discovered by the finding of his room in a state of confusion. He had torn up his bed clothes and broken the furniture. When found some fifty miles from town Dodge was almost dead from thirst and exposure.

He has been in the Napa asylum several times. He will be committed to the Southern California State Hospital at Highlands.

### Britain at St. Louis Fair.

London.—The Government's official exhibit at the St. Louis Exposition will be limited to subjects of education and fine arts, but it is expected that the wider range of non-official exhibits will include various features of applied arts. The fine art exhibit is to be controlled by a committee of the Royal Academy.

## NEWS OF THE WORLD EPITOMIZED

Important Happenings of the Week Briefly Told.

### TELEGRAMS FROM ALL SECTIONS.

Short, Pithy Paragraphs That Give the Cream of the Week's Events in a Form Appreciated by Busy Readers

The domestic price of anthracite coal has been advanced to \$9 per ton, an increase of \$1 above the former price.

Jack Bonner, a middle-weight pugilist, has been elected School Director at his home in Summit Hill, Pa., where he has many admirers.

The Russian Consul at Odessa, Russia, informs the State Department that the plague has been officially proclaimed at Odessa.

A recent Prussian army order forbids the use of American lard in army kitchens and directs that hams must be bought from domestic slaughterhouses.

The fourth anniversary of the capture of the city of Manila, which surrendered to the American forces on August 13, 1898, was observed at Manila as a general holiday.

At Lexington, Mo., Charles Salyers, white, and Harry Gates, colored, were taken from the County Jail by a masked mob and lynched. They were charged with killing George W. Johnson, a wealthy farmer, who surprised them at his farmhouse near town a week ago.

A St. Petersburg dispatch to the London Globe says that Japanese naval officers on their own responsibility have landed guns, constructed a battery and posted guards on the island of Kethnesan, and that Korean officials who were sent to investigate were driven away by the Japanese.

At Toledo, Ohio, Wong Yen, a Chinese, recently arrested for entering the United States in violation of the immigration laws, committed suicide in the County Jail by hanging himself.

Polish papers report that Prince Orbolski, Governor of Kharkov, Russia, who was shot and wounded last week at Kharkov, received some time ago a formal sentence of death from the central revolutionary committee, and since that time the Prince has worn a waistcoat of chain armor, which saved his life.

A hospital for the treatment of emergency cases will be established on the grounds of each of the twenty-two plants of the American Steel and Wire Company in the United States, at a total cost for buildings and equipment of nearly \$300,000. It is calculated that they will be ready to receive patients within six months.

A Russian student named Kalajeff, who was recently released from a Silesian prison, has been surrendered to the Russian police at Berlin, it being suspected that he was an accomplice in the murder of M. Sipiaguin, the Russian Minister of the Interior, who was shot and killed on April 15th last.

The boiler of the tug Jacob Kuyper, owned by G. K. Kupp & Brothers, blew up near St. George, Staten Island, N. Y., and she sank almost immediately. Four of the crew were killed or drowned. Two men were picked up alive by the Staten Island ferryboat Castleton and brought to New York. The tug was towing a lighter loaded with cotton from Brooklyn to Staten Island.

Surgeon-General Forwood said that he was satisfied that the cholera situation in the Philippines was well under control and that there would be a general diminution in the number of cases from now on. He declared that all the latest information from the Philippines was favorable to the early suppression of the scourge. The chief factor in that direction was the rainy season, which, General Forwood said, had already opened and will continue until November.

The commissariat at Les Neven, Finisterre, France, accompanied by a strong body of gendarmes, proceeded to the village of Geuzere to expel the sisters from the schools there. The schools were defended by a crowd armed with cudgels and stones. One gendarme was unhorsed and the commissariat was compelled to retreat. Later he returned with a company of soldiers, who protected him while he closed the schools amid shouts of "Long Live Liberty."

The new German Lloyd steamship Kaiser Wilhelm II was successfully launched at the Vulcan shipyard at Stettin last week in the presence of Emperor William. The Kaiser Wilhelm II will be the largest ship in the world. Her dimensions are: Length, 707 feet; beam, 71 1/2 feet; depth, 39 feet and draught, 25 feet. Her displacement is 19,500 tons. She is to be of 30,000 horse-power, and will have accommodations for 1000 cabin passengers.

When Charles M. Schwab, the steel trust president, purchased on his own

account for \$7,500,000 the Bethlehem Steel Company, Wall street financiers declared that he had bought a white elephant. Today those same Wall street men are agreed that the Pittsburgher displayed uncommon shrewdness in the deal and that the \$18,500,000 profit it brings him is well deserved. His price for the plant to the ship-building trust was \$20,000,000. The trust paid it, handing over \$10,000,000 of its collateral trust certificates, \$8,000,000 of its preferred and \$5,000,000 of its common stock. To secure the Bethlehem Steel Company the trust had to increase its capital from \$25,000,000 to \$45,000,000.

At Knoxville, Tenn., in a peculiar way, a story came to light which has no parallel since the day the slave market was destroyed. Jerry Logan, the aged janitor of the State Supreme Court, sold himself to Gerald Stuart, clerk of the court, for \$1000. For this sum he agrees in writing to serve and obey Stuart as his legal master from now until the time of his death. The origin of the unique deal is that Logan, who is a negro of sporty habits, though never in an offensive way, has lately found himself involved in certain debts which have worried him greatly, and to get rid of them he sought this means of raising ready money, the \$1000 to be paid to him at once. Logan is an ex-slave, born of slave parents sixty years ago, and has many white friends of the old regime.

"Bachelors are moral degenerates. From them emanate most of the sin and shame of the world. They are lacking in mental and physical poise. The life of no individual is complete unless he or she have a life companion of the opposite sex." Here is in a nutshell the condemnation pronounced upon the unmarried individual by Dr. E. Benjamin Andrews, chancellor of the University of Nebraska, in a lecture before the students of the University of Chicago.

"Providence intended that men and women should marry," continued the speaker. "Individuals who do not form legal ties with the opposite sex will form illegal ones. The world does not want that kind of ties. The great men and women of the world—the ones whose lives were symmetrical and whose works were best for posterity—have been married."

Would Enlist in Our Army.  
London.—Time-expired South African soldiers have been the victims of a curious delusion, which is causing the officials of the United States embassy considerable annoyance. Former British soldiers who have served in the American Army in the Philippines. They all say a report was in circulation at Cape Town and Durban that the United States was enlisting ex-British soldiers for service in the islands. At the London embassy scores of applicants have already been turned away greatly disappointed.

CLAIMS TO BE A CALIFORNIAN  
Man Accused of Conspiracy to Defraud an Express Company Held for Trial.

Fordsville, Ky.—After a preliminary hearing before Magistrate Evans here J. H. Boatner and A. B. Schlitzbaum, charged with complicity in a conspiracy to defraud the American Express Company out of \$28,000, were held to answer to the Grand Jury in the sum of \$30,000. The charge of a similar nature against William A. Ault was dismissed and he was given his liberty. Boatner and Schlitzbaum were unable to give bonds and were removed to the jail at Hartford, Ky.

During the examination of Boatner he was placed on the stand and denied emphatically that he was interested in any conspiracy to defraud the express company. The prosecution introduced a number of witnesses, among them C. J. Abbott, route agent for the American Express Company, who told of Boatner's sending money from Owensboro to Fordsville and stated that Boatner claimed California as his home, refusing, however, to give a postoffice address, saying his father was about to leave for South America, and a fugitive from justice, and had given him the money to invest in Kentucky coal mines.

J. H. Schumacker, superintendent of the Pinkerton National Detective Agency, told of an interview he had had with the prisoner. "Boatner said he had no home," said the witness. "He gave his father's place of residence as California, but intimated his father had killed a man on a race track and was a fugitive from justice in South America."

Cholera in Manchuria.  
St. Petersburg.—Cholera continues to spread in Manchuria, and isolated cases have been reported in Siberia outside of Blagoveshchensk, where it has a firm hold. Up to the last reports there had been 274 cases and 179 deaths at Blagoveshchensk, 445 cases and 285 deaths at Port Arthur and 33 cases and 20 deaths at Dalny.

Four Killed in a Storm.  
Grand Forks, N. D.—A terrific storm passed over the eastern part of this State Monday night. Reports received from Rolla say that four deaths occurred eight miles east of there as a result of the tornado. The house of a settler, name unknown, was blown down, and his wife and three children were killed.

Comes Into Big Inheritance.  
Redding.—F. Zella, a retired merchant at Sisson, has received news of the death of his brother in South Africa. The brother owned a \$3,000,000 diamond mine. The Sisson man has but one living brother and they jointly will inherit the vast sum.

Forest Fires Threaten Towns.  
Florence, Wis.—Forest fires that have been raging in this vicinity now threaten the town, and the Fire Department was called out. At Commonwealth, a mining village south of here, the citizens have been unable to protect their homes.

Rate War on the Yukon.  
Big Crowds Taking Advantage of the Cuts to Come Out.

Tacoma, Wash.—Another rate war on the Upper Yukon commenced last week, when the steamer Tyndell reached White Horse from Dawson with eighty passengers at \$18 first-class and \$7 second class. The White Pass steamer Columbian, with rates cut to a similar figure, landed over 100 passengers at White Horse the next day. Other heavily laden steamers are en route up the river, indicating a large outcoming crowd while the rates are up. The White Pass line has the advantage of naming through rates by river and rail to Skagway. This caused the opposition steamers to lower the rate to about one-third of the regular fares and the White Pass promptly met the cut.

## TARIFF PROTOCOL SIGNED

Agreement Between Several of the Powers and China Is Effected.

### IMPERIAL SANCTION WITHHELD.

Portugal Causes Trouble by Claiming Two Small Islands Near Macao Together With Railroad Concessions.

London.—In a dispatch from Shanghai, the correspondent of the Times says the protocol of the tariff treaty was signed Saturday by the British, American, German and Japanese representatives without reservation, and by the Austrian, Belgian and Dutch representatives by adopted referendum. This action, continues the Times' correspondent, was principally due to the American Commissioner, T. S. Sharretts, desiring to conclude the business before returning to the United States.

The Chinese Commissioner, lacking imperial sanction, did not sign the protocol; therefore, if China modifies it the signatures affixed will be void. The document provides that the new tariff becomes operative November 1st.

Portugal, adds the correspondent, complicates the situation by claiming a concession of two small islands near Macao, and the right to build a railroad from Macao to Canton as a quid pro quo for the acceptance of the new tariff. This incident, says the representative of the Times in conclusion, illustrates the difficulty underlying this whole question.

Washington.—The State Department has received a dispatch from T. S. Sharretts, the Treasury expert who was commissioned by the State Department to negotiate a tariff treaty between the United States and China, stating that the treaty was signed on the 15th inst., and that he would sail for the United States on the first steamer.

The announcement contained in Sharretts' brief statement to the State Department brings to a successful conclusion negotiations which have been in progress for some time in this country. It was stipulated as one of the features of the peace agreement between China and the foreign powers at the close of the Boxer outbreak that an entirely new fabric of trade treaties should be made. This carried out the purpose Secretary Hay had maintained throughout, the desire being to open up foreign communications with the interior of China and thus gain access to the vast markets of the empire.

Following the conclusion of the peace arrangements, Sharretts was selected to carry on the tariff negotiations in behalf of the United States. This selection was due to his long familiarity with tariff affairs, as he had assisted in the framing of recent tariff legislation before Congress, and had also served as one of the general appraisers of New York. He went to China about a year ago, and has since been engaged in working out the details of a tariff agreement.

Shanghai.—Liu Kin Yi, Chang Chih Tung and Yuan Shai Kai, Viceroy respectively of Nankin, Hankow and Governor of Pechili, in separate conferences with T. S. Sharretts, Tariff Commissioner of the United States, and John Barrett, Commissioner-General for Asia for the Louisiana Purchase Exposition, have concurred in making two significant and unequivocal declarations. The first is that the critical time has arrived when China must make a supreme effort for the promotion of commerce and friendly intercourse with America and Europe; the second declaration was that, as an evidence of her good faith in this intention and her appreciation of the generous policy of the United States toward her, China will make an unprecedented exhibit at the St. Louis Exposition.

St. Petersburg.—Cholera continues to spread in Manchuria, and isolated cases have been reported in Siberia outside of Blagoveshchensk, where it has a firm hold. Up to the last reports there had been 274 cases and 179 deaths at Blagoveshchensk, 445 cases and 285 deaths at Port Arthur and 33 cases and 20 deaths at Dalny.

Body Found in Los Angeles.  
Los Angeles.—The badly decomposed body of a man was found Sunday in the extreme northwestern part of the city. It was that of a man apparently about 35 years of age. It had been lying in the field where it was discovered probably three or four weeks. As far as could be ascertained, the man had been shot through the heart. It is thought to be a case of suicide.

Has a Pest of Frogs.  
Redding.—Klamath Falls has a pest of frogs. They are especially plentiful along the banks of the Link river and Lake Ewanna, and they often invade the streets of the town. Mornings and evenings they are so plentiful on the sidewalks in the vicinity of the river that to walk without crushing them is a matter of no little difficulty.

Fatal Sicilian Riots.  
Rome.—A serious peasant riot has occurred at Palomonia, Sicily, where great distress prevails. One soldier was killed in an encounter with the rioters and several soldiers and peasants were wounded.

## ENGINEER DIES AT HIS POST.

Wreck of Westbound Mail in Nevada Costs a Life.

Reno, Nev.—A special to the Journal from Wadsworth says: The first section of train No. 3, the westbound mail, was badly wrecked at the eastern end of the yards at 1:35 o'clock Sunday morning. The train was pulling in from the desert and collided head-on with a switch engine. Both locomotives were badly damaged, the passenger train was derailed and considerable track was torn up. Engineer Frank Dolan, commonly called "Barney," died with his hand on the throttle of the passenger engine. This was the only fatality of the wreck, although there were some slight injuries and the passengers were all considerably shaken up. The damage done to the track and train caused a tie-up of a couple of hours. Engineer Dolan had been running on the road for the past eleven years. He resided in Winnemucca and leaves a wife. They were married June 27th. The bride was from Golconda.

Experiment in Reclamation.  
Marysville.—Charles Silva of Sutter county is having towed up the Sacramento river a mammoth dredger, which will be landed at a point four miles above Vernon, where there is no levee to interfere, and worked inland half a mile. Silva hopes to reclaim 1200 acres of valuable land by levee building and is so sure of success that he has gone to considerable expense in preparations. The experiment will be watched with interest and its success will mean the prosecution of similar enterprises by other overflow-land owners.

Volcanic Eruption in Japan.  
Yokohama.—The island of Torishima was overwhelmed by a volcanic eruption between August 13th and August 15th, and all the inhabitants, numbering 150 persons, were undoubtedly killed. The island is covered with volcanic debris and all the houses on it have disappeared.

The eruption is still proceeding and is accompanied by submarine eruptions in the vicinity, which make it dangerous for vessels to approach the island.

Torishima is one of a chain of islands extending off the Bonin islands and Hondo, the biggest island of Japan.

FARMERS FORM A BIG COMBINE.  
a Capital of Fifty Million Dollars.

Pierre, S. D.—The Farmers' National Co-operative Exchange Company has filed articles of incorporation with a capital of \$50,000,000. The purpose of the corporation is to buy, sell and deal in grain, provisions, livestock and all kinds of produce on commission and otherwise, and for this purpose to build and equip grain elevators, warehouses, cold storage plants, stock yards and whatever may be necessary to carry on the business of the corporation.

One-fourth of the capital stock will be used for building the elevators, stock yards, branch offices, etc., and another fourth will be made a cash fund for the purpose of dealing in cash grain and provisions on the Board of Trade. The remaining half of the capital stock will be left virtually with the farmers in various banks where the money has been raised to enable them to carry their crops for more favorable markets. This will give the farmers \$50,000,000 back of their interests to help them in securing better prices for their produce. The stock book will be open in banks throughout twenty states.

Filipino Crew Mutinied.  
Manila.—The native crew of the interisland steamer Mis Hermanos mutinied at Port Viraje, island of Catanduanes. They murdered the chief engineer of the vessel and wounded the captain, the mate, the second officer and one of the passengers, all of whom are Spaniards. Members of the native constabulary went to the rescue of the ship's officers. They fired into the crew and killed three of them. Twenty-five of the crew surrendered and five jumped overboard and are believed to have drowned.

During the fighting on the Mis Hermanos the steamer ran aground, but was subsequently floated.
